NSW Govt. Railways 'BCH' Bogie Coal Hopper

Engineering Sample shown

After WWII the NSW Govt. Railways introduced the 'BCH' Bogie Coal Hopper to replace the four-wheelers it had made do with since the 1860s. Weighing 19 tons when empty and 60 when full. 2,750 were built with many being converted to BWH grain wagons. Long trains of these could be seen behind a range of NSW steam locomotives including AD60s and C38s.

Given the challenge of providing affordable quality models for the Australian market, Argyle has chosen the 1:32 scale American 3 bay hopper as a basis for this model and applied the livery and lettering of the NSWGR 'BCH'. This model will appeal to those modelers seeking an inexpensive, ready to run 1:32 scale NSWGR goods train and who can accommodate the package of affordability, availability, appearance and correct scale. Available individually or as a set of 4 with different road numbers.

Specifications

Scale / Gauge: 1:32 / 45 mm	Plastic Body, Die-Cast trucks,
Mini. Radius: 48 in. (1.2 M)	Metal wheels
Length: 15.67 in. (397 mm)	Detailed underbody
Width: 3.98 in. (101 mm)	Working knuckle couplers
Height: 4.68 in. (119 mm)	Available in 4 road numbers

Versions available (subject to production batch)

BCH Set	Set of 4. # 28635, 29424, 32013, 32259
BCH 28635	Bogie Coal Hopper BCH 28635
BCH 29424	Bogie Coal Hopper BCH 29424
BCH 32013	Bogie Coal Hopper BCH 32013
BCH 32259	Bogie Coal Hopper BCH 32259
