Steam Powered Garden Railways

## PRODUCT SHEET

### ROUNDHOUSE ENGINEERING

ALCO 2-6-2T Live Steam

Since launching the Ffestiniog Railway Mountaineer, Roundhouse has had many requests for the locomotive in it's original WD form. They have decided to produce it as built by the American Locomotive Company (Alco) for the British War Department Light Railways (WDLR) and will be of works number 57148 which

was built in the same year as 'Mountaineer'. It will be available with either it's war department markings - WD and arrow on side tanks and loco number 1257 on front of tank) or as running on the Chemin de Fer Froissy-Cappy-Dompierre - (RL1257 on side tanks and CFCD No9 on buffer beams).

#### PRODUCT SPECIFICATIONS
