Steam Powered Garden Railways

## PRODUCT SHEET

ASTER HOBBY CO. JAPAN

Utility Car (Pump Wagon)

This Utility Car allows you to extend the running time of some Aster models by providing additional fuel and water to the loco.

The model comes with alternate gas or alcohol tanks (both supplied) and a water tank with a battery powered pump to top up the boiler while the loco is under way.

Running chassis and mechanisms supplied only (supply your own wagon shell) Supplied as a kit only (No RTR available). Suitable for the BR89/BR983/JNR B20/JNR C11.
