

## Accucraft 1:13.7 scale Decauville Type 1, 3-ton 0-4-0T

Photo by Hannes Paling

By the late 1800s, France's Decauville Manufacturing Company had established themselves as builders of reliable and simple to operate narrow gauge steam locomotives. Many of their designs were intended for use in agricultural, mining, and light industrial settings. One such loco was a Decauville Type 1, 3-ton 0-4-0T built in 1899, construction #302, for the Dombé Grande Sugar Estates in what was then the Portuguese territory of Angola. The loco was named "Bathala". In 1930, after three decades of dependable operation, "Bathala" was placed in a museum on the company's grounds. This act ultimately led to her survival from the civil war and turmoil which impacted that country decades later.

After being "found" again in 2003, and after nearly two years of negotiations, the loco finally made its way to Johannesburg. In what is perhaps a world record for locomotive restoration, the work was completed in only four months! "Bathala" can now be found operating at the Sandstone Steam Railroad in Bloemfontain, Free State, South Africa.

Specifications are subject to update as development and production proceed and may change without notice

Accucraft Trains is pleased to announce this locomotive in 7/8ths to the 1 foot (1:13.7) scale live steam. Our thanks and appreciation to both David Fletcher and Jason Kovac for their assistance in the development of this model. Three different colour versions are offered: maroon, green, and black. Each version also features an attractive contrasting colour lining. We expect this locomotive to be popular; please place your reservations early!

### Specifications

Scale / Gauge	7/8ths / 45 mm	Butane fired
Construction	Brass & Stainless Steel	Two cylinders
Mini. Radius	48 in. (1.2 M)	Single flue
Length	8.19 in. (208 mm)	60 psi working pressure
Width	4.35 in. (110.5 mm)	1/2" Pressure Gauge
Height	7.15 in. (181.6 mm)	Water sight glass
		Full backhead detail
		Slide valve cylinders with fixed cutoff
		Full Walschaerts valve gear

### Models

B77-531

Decauville - Maroon w/ Yellow Lining  
Butane Fired, Live Steam

B77-532

Decauville - Green w/ Yellow Lining  
Butane Fired, Live Steam

B77-533

Decauville - Black w/ Red Lining  
Butane Fired, Live Steam
