Roundhouse Engineering 1:19 scale 'Bulldog'

Bulldog is another Roundhouse freelance design typical of a powerful small yard shunter and, though it shares the same chassis with Little John, it has a more purposeful look and features extra detail and a working head lamp.

Specifications are subject to update as development and production proceed and may change without notice

Specifications

- 0-4-0 outside framed steel chassis.
- Long running time.
- Fitted with a Hi-Powered motor and tough nylon gear set.
- Dimensions (loading gauge) are: - length 179mm over buffers, width 80mm, height 139mm, weight 1.4Kg (with r/c).
