Accucraft UK

1:20.3 Scale Isle of Man 'E' Van

The 'E' vans were four-wheeled brake and luggage vans fitted with lookout duckets, but otherwise entirely sealed with only two drop-sash windows at the guard's door. None of these vans survive today, and they were effectively made redundant when later passenger coaches had their own braking systems. The roof is removable if required for customers to install their own interior detail, for example, or lighting. An additional set of 32mm wheels is also provided. Although the models are 1:20.3 scale they look well with 1:19 scale equipment and are probably larger than the equivalent scale models of Talylyn coaches!

Specifications:

Scale: 15mm to 1 foot (1:20.3)	Height over ventilators: 148mm (5 ¾ inches)
Length over couplings: 302mm (12 inches)	Gauge: 32mm or 45mm
Width over footboards: 135mm (5 ¼ inches)	Min Radius: 750mm (2 feet 6 inches)

Versions available, subject to production batch:

R19-24 IoM 'E' Van, Maroon & Cream
R19-24G IoM 'E' Van, Green & Cream
